LEARNING FACILITIES

ABOUT US

Mobile Home Supply is a family business that was established in 1993 after owner Stan realised a need in the market for alternative housing. Stan has always worked in the Construction Industry, building homes from the foundations up, with a belief that everyone needs a place to call home. And now, for over 25 years, he has the privilege of running a mobile home business with his wife and two sons. The entire team has a passion for providing high-quality customised mobile units to the market that meet the specific needs of their clients, and walk the extra mile to ensure client satisfaction.

Mobile Home Supply's core business is providing temporary and permanent space solutions; prefabricated modular units or customised containers that are safe, reliable and securable. Our mobile units and facilities are sold or rented and available in various sizes, addressing many needs from accommodation to construction facilities, learning facilities, and other unique buildings such as outdoor canteens, clinics and the like. Dedicated consultants manage client expectations by analysing the intended use, location and available infrastructure and advise on the options best suited for the purpose.

All mobile units that are manufactured and supplied by us are transported to site, delivered and erected, and we have the knowledge and expertise to manage all ground works, civils, and utility services to provide a ready-to-use unit.

As a business we strive to remain at the forefront of the SA mobile home industry through outstanding post-delivery service to all clients, irrespective of unit size, location or application. Our commitment to delivering superior service in our industry is evident in the recent ROCCI Business of the Year Award that we achieved as the Bronze Winner in the Manufacturing category, and before that, in 2017, the Gold Award for the best medium-sized business. Mobile Home Supply is based in Randfontein and serve clients nationwide and cross-border.

LEARNING FACILITIES

As market leaders in the mobile space solution industry, we specialise in the design, manufacturing, and erection of prefabricated learning centres and facilities. Our units provide an alternative to bricks & mortar classrooms and help schools overcome the regulated restriction of over-development on the property. It is also a much more cost-effective way of providing additional learning spaces in the shortest possible time for children to have a stable and safe environment that is conducive to learning and development.

Our learning centre solutions are not limited to classrooms and ablutions only. We offer a wide range of facilities to complement learning and to afford learners and personnel comfort and security on the terrain.

All our units can be fitted with essential accessories to meet the client's requirements. These fittings can include the following:

- **Lights**
- **Switches**
- **Plugs**
- **DB Board**
- **Aluminium or Steel Window Frames**
- **Security Doors**
- **Burglar Bars**
- **Flooring of your choice (Laminated, Carpets, Vinyl or Rubberised).**

The Learning facilities we can offer you:

- Schools
- Universities/Colleges
- Training Facilities
- Single or Double Classrooms
- Boarding Houses/Dormitories
- Lunchrooms/Recreation Area
- Canteens
- Assembly Halls
- Offices
- Sports Storage Units
- Toilets, Shower, and Bath Facilities

Sizes:

Width: 3 m, 3.5 m, 7 m

Length: 3 m, 6 m, 9 m, 12 m, 15 m, 18 m and modular units.

Any facility that is wider than 7 m will be constructed in modules on site. These structures are erected directly on concrete slabs and serve as a permanent building.

We supply Interior Extras/Décor

All units can be fitted with interior extras as required by the client. Some standard interior extras include the following, and we can assist with anything that is not listed here:

- Office Furniture
- Boardroom and Meeting Room Furniture
- Classroom Furniture
- Lockers
- Kitchen Equipment
- Canteen Furniture
- Air Conditioning
- Carpets or Laminated Flooring
- Blinds and Curtains

SERVICES

Our additional services complement our mobile unit offering and enable us to provide our clients with a comprehensive instant space solution.

- Turnkey Solutions
- Construction and Assembly at Factory
- Assembly and Erection on Site
- Own Transport/Delivery
- Relocations
- Site Establishment
- Revamp
- Utilities (Water and Electricity Connections)
- Solar Options
- Gas Options
- Generator Supply and Connection

We are not limited to the services listed above as we customise a solution according to our clients' needs.

CONTACT US

Please contact us to discuss your instant space requirements. An initial meeting to address specifics helps us meet our clients' expectations. We'll gladly arrange a conference call or online meeting if an in-person meeting is not attainable.
