ABOUT US

Mobile Home Supply is a family business that was established in 1993 after owner Stan realised a need in the market for alternative housing. Stan has always worked in the Construction Industry, building homes from the foundations up, with a belief that everyone needs a place to call home. And now, for over 25 years, he has the privilege of running a mobile home business with his wife and two sons. The entire team has a passion for providing high-quality customised mobile units to the market that meet the specific needs of their clients, and walk the extra mile to ensure client satisfaction.

Mobile Home Supply's core business is providing temporary and permanent space solutions; prefabricated modular units or customised containers that are safe, reliable and securable. Our mobile units and facilities are sold or rented and available in various sizes, addressing many needs from accommodation to construction facilities, learning facilities, and other unique buildings such as outdoor canteens, clinics and the like. Dedicated consultants manage client expectations by analysing the intended use, location and available infrastructure and advise on the options best suited for the purpose.

All mobile units that are manufactured and supplied by us are transported to site, delivered and erected, and we have the knowledge and expertise to manage all ground works, civils, and utility services to provide a ready-to-use unit.

As a business we strive to remain at the forefront of the SA mobile home industry through outstanding post-delivery service to all clients, irrespective of unit size, location or application. Our commitment to delivering superior service in our industry is evident in the recent ROCCI Business of the Year Award that we achieved as the Bronze Winner in the Manufacturing category, and before that, in 2017, the Gold Award for the best medium-sized business. Mobile Home Supply is based in Randfontein and serve clients nationwide and cross-border.

MOBILE UNITS AND FACILITIES

All our prefabricated units are constructed, and container conversions are done, **on our premises** and transported to a site where our expert team will erect the facility. We have the knowledge and experience to handle the entire setup that includes the groundworks, civils, rigging, utility connections, and everything else that's needed before the unit can be utilised.

A mobile unit can be used practically anywhere where a temporary or semi-permanent office, home, ablution, learning centre, or another type of facility is needed.

One of the many advantages of utilising our mobile units is that it can be customised to fit the purpose after careful consideration with our consultants. They will assist you with planning the perfect layout for your unit/s and document all the relevant requirements and ensure that the units are practical and comfortable. In some instances, a container unit will address the particular need, but more often than not, a prefabricated solution will be the better option with flexibility to

expand. For example, a 3x6 m unit is suitable for an office for 2-3 people, each with a simple desk, chair, and a small cabinet. A larger office unit is recommended for more than three people.

An added benefit to utilising one of Mobile Home Supply's units is that all units are installed with isolated roofs to maximise its comfort.

Construction Site Units and Facilities

- Offices
- Boardrooms/Meeting Rooms
- Security Booths
- Storage Units
- Sleeping Quarters
- Change Houses
- Ablution Bocks/Toilets
- Showers and Bathrooms

SIZES:

Width: 2.4 m, 3 m, 3.5 m, and 7 m

Length: 3 m, 6 m, 9 m, 12 m, 15 m, and 18 m

Accommodation Facilities

|--------------------------------------|-------------------------------|
| Office Furniture | Shop Front Furniture |
| Boardroom and Meeting Room Furniture | Spa Equipment |
| Classroom Furniture | Air Conditioning |
| Lockers | Carpets or Laminated Flooring |
| Kitchen Equipment | Blinds and Curtains |
| Canteen Furniture | |

WE ADD VALUE

We are committed to meeting client expectations through customised units that are built, equipped, delivered, and erected precisely the way the client wants it. We don't deliver an empty shell unless it is a requirement and can supply, for example, suitable furniture, lockers, boardroom tables, medical supplies, classroom boards, projectors, paint, turnstiles, etc. to rig the unit for its intended purpose.

A dedicated consultant works with clients for the duration of their project to determine the exact needs and advise on the best space solution for the particular application. Our consultants consider all aspects of the use, placement, and duration of use of the unit before any recommendations are made. After-sales service is not a term we use lightly, as we are dedicated to providing lasting quality service and build long-term relations with our clients.

Though the majority of our client base are larger businesses in the mining, construction, agriculture, private, and government sectors, we are phenomenal at handling the smallest requirement you might have.

TESTIMONIALS

In the past ten years MOBILE HOME SUPPLIES was appointed as the preferred contractor in several and in some instances as the subcontractor to manufacture and produce several services and products for the SA Government and more especially the Department of Defense.

All products were manufactured and produced with precision, excellence and pride, perfect for the needs and requirements of the client.

All products were of excellent quality and outstanding craftsmanship.

MOBILE HOME SUPPLIES is recommended as a highly professional and excellent quality control supplier of all types of mobile accommodation and applicable facilities and compliance with the needs and any requirements of the customer.

- Lt Col H.L. Momberg, Department of Defense

I have been using Mobile Home Supply to build boardrooms, ablution units, accommodation units, office units, change houses and a training centre facility for the past 11 years and have always been completely satisfied with their performance. They do an excellent job, are always punctual, and work safe and accordingly to standard.

We appointed Mobile Home Supply to transfer our complete office structure from Twickenham Mine and re-establish the workplace structure at Tumela Mine. Portion of their scope was: on site levelling, joining of units, plumbing and all electrical works as well as steel structure roof work. They have been very reasonably priced, and always complete the task at hand effective and efficiently.

I have had a good experience with them over the past few years for the services they have rendered to us. I therefore highly recommend their services. **- Nico Janse van Rensburg, Manager Engineer – NMT, Anglo American**

CONTACT US

Please contact us to discuss your instant space requirements. An initial meeting to address specifics helps us meet our clients' expectations. We'll gladly arrange a conference call or online meeting if an in-person meeting is not attainable.
